Report of Supt. of Schools

During the past year we have tried especially hard to improve the work in English. Last spring term the 8th and 9th grades were given very intensive drills in letter writing and compositions. In the early part of the fall term a Joint Teachers' Meeting was held and all your teachers attended. At this meeting a lesson in English was demonstrated and a helpful talk in "English Required For High School Entrance" was given. Recently there has been great improvement in English textbooks. In the fall I purchased enough for the two largest schools and asked the teachers to tell me if they found these helpful. Reports were very satisfactory and all 8th and 9th grades will be supplied for the spring term. In the 3rd grade all pupils will also be supplied with a new book. These new 3rd English seem to me to be the best I've ever seen to help pupils to get a correct start in this very important subject. Other classes will be supplied with the new series as soon as we have sufficient funds. The teachers deserve a great deal of praise for their efforts to do all they could in the very short time they have for their classes.

In regard to the English work of the pupils who are already in high school: Have received all of the ranks of 30 pupils and only 2 have below passing in English. 5 have above 90%, 6 from 80 to 90% and 17 have from 70 to 80%. Another thing interests me very much and it is this: English results show that most pupils who have excellent in other subjects have excellent in English, while the others who have the good and fair ranks have good and fair in English. This shows us over $33\frac{1}{3}\%$ of the pupils have sufficient rank in this subject to entitle them to "Honor Roll" rank in this.

Since some have asked me as to the rights of the School Committee in performing certain school work I am quoting from a letter sent out by the State to all superintendents: "There has been more or less confusion as to the provisions of the Revised Statutes, Chapter 131, Section 11, relative to the legal status of a school committee member in performing certain services like conveyance of pupils, repair work and the like while serving the town as a member of the said committee. A ruling from the office of the Attorney General states that this statute does not apply to the School Committee of a town."

In justice to your teachers we could not give a general salary cut for the pay in most schools had been already reduced. In the other towns in this union salaries had been kept up until this year.

At South Windsor we had to add a little to the contract price for transportation as a child who had paralysis a few years ago was unable to walk. This added mileage on a very bad road.

The State Commissioner has written all of the superintendents that because of the shrinking of the State School Fund all towns will probably get from 18 to 20% less next year. This means we must vote enough to make up this loss or not have enough to maintain our schools next year. Am very sorry as I had planned to recommend a good reduction in the Common School account. With this shrinkage in State Funds am forced to recommend the same total amount as last year. This is not as bad as it sounds for we are assured that in most towns a part of this extra 18 to 20% cut will be made up by a lower State Tax. There is hope too, as you no doubt know, of new laws that will add to the State School Fund. At South Windsor the schoolhouse is very badly in need of paint and a new window. Every year without painting this will make the cost more. At this time the work can be more cheaply done than for a long time. You have a large number in high school and that takes quite a share of the funds. The amounts I am recommending do not include any provision for deficits and are the lowest it

seems possible to recommend to maintain satisfactory schools. Am sure you will all keep in mind this: The schooldays of the children come but once and anything we do to prevent their getting an education will always hinder them.

The following appropriations seem necessary:

For Common Schools	\$3,300 00
For High School Tuition	1,500 00
For Books and Supplies	200 00
For Repairs at South Windsor	50 00
For General Repairs	125 00

I wish to extend my sincere thanks to all the officers of the town who have always given me help and cooperation and to the citizens for their many acts of kindness.

Respectfully submitted,

LILA N. LEAVITT,

Superintendent.
